F&L - 20+ YEARS OF MANUFACTURING EXPERTISE

Let us leverage the advantages of aluminum t-slots for you

Our CAD Designers have learned the optimum ways to design, build and deploy 80/20-brand aluminum t-slot extrusions to help solve problems and deliver results for our customers.

Manufacturing Quality You Can Count On

Very few aluminum t-slot distributors offer manufacturing in-house, and even fewer offer ISO 9001/2015 certified manufacturing.

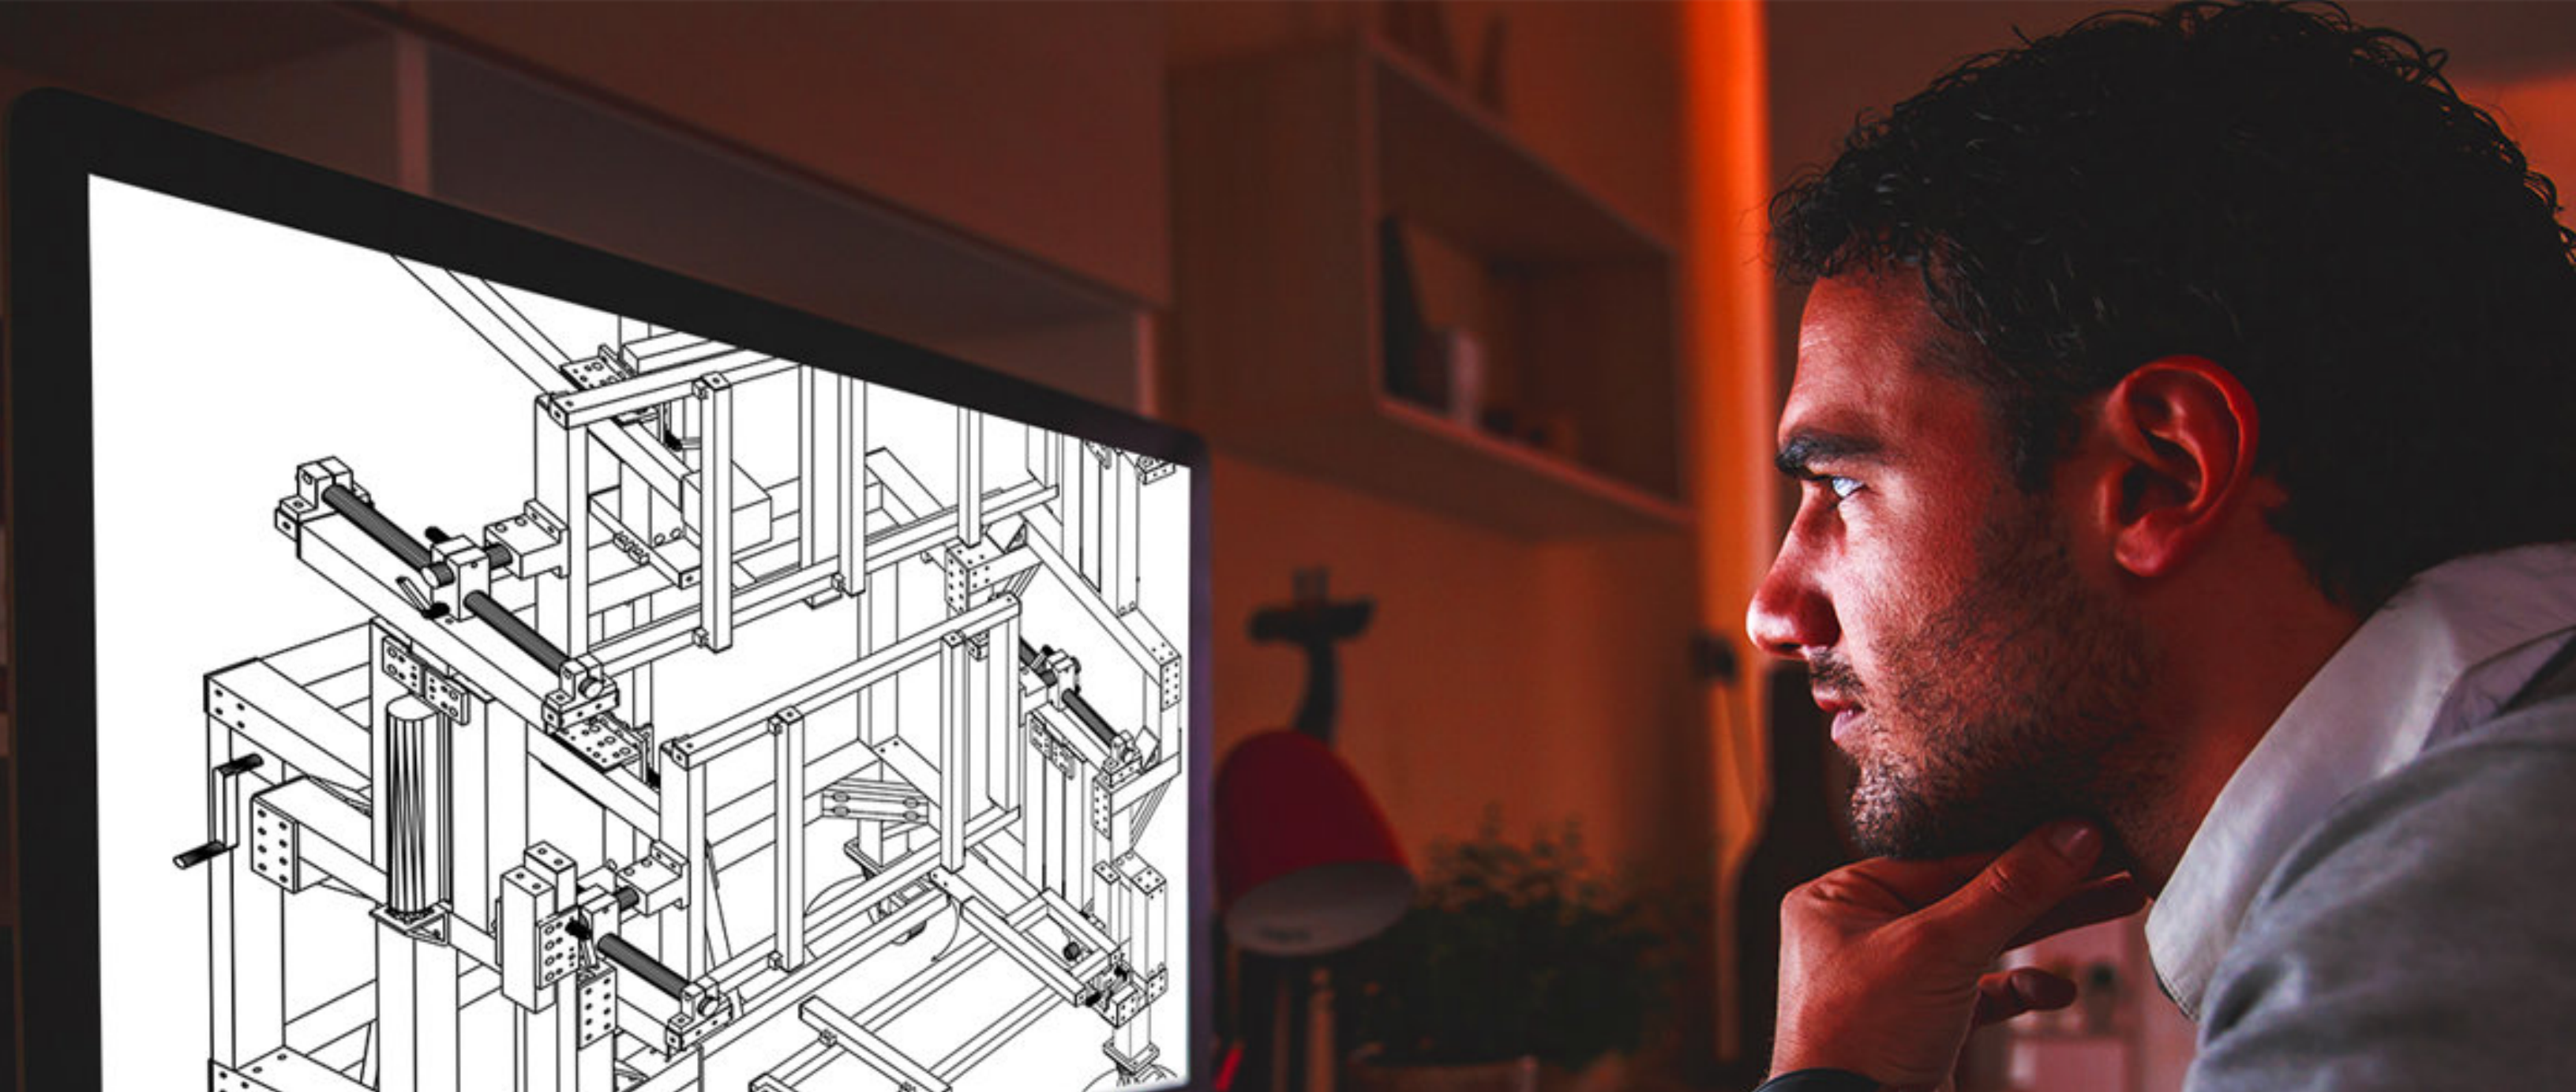

At F&L, we are focused on quality throughout our entire business to meet any and all customer requirements.

More information about F&L is located on our website: www.fandl8020.com

Custom aluminum structures help manufacturers, factories, integrators, R&D facilities, construction companies and distribution centers improve their operations

Precision CAD Designs & Machining To Meet Your Requirements

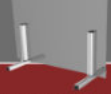

Our staff of professional CAD Designers can convert your existing drawing to a t-slot masterpiece or create a custom solution from scratch. All we need to get started is an understanding of your needs and ideas. Have photos, existing drawings, or just a sketch? Call us to get started or simply send them to us by email. We will lay your project out in CAD, then send you a drawing and detailed quotation - all at no cost.

Call us: **1-858-602-1500** Or email project info to: info@fandl8020.com

Custom Aluminum T-Slot Framing Offers Unmatched Utility And Value Versus Off-The-Shelf, Steel or Wood

Benefits That Custom Aluminum Framing Delivers

										
BENEFITS	Cabinets	Carts	Enclosures	Machine Bases	Partitions & Sneeze Guards	Racks & Shelves	Rooms & Walls	Safety Guarding	Work & Lab Tables	Work Benches
